What the learners were saying

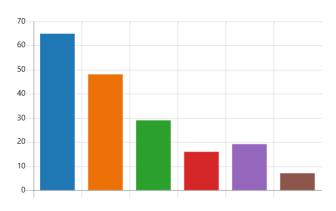

What the learners were saying

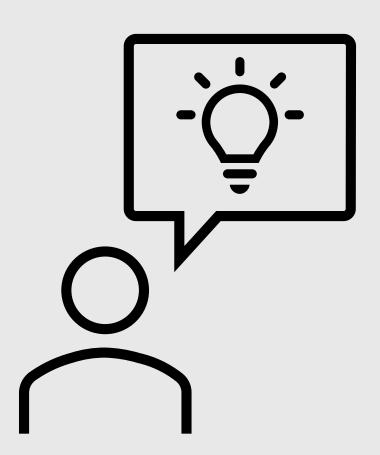

6. What have you enjoyed during your language lessons in S1 and S2?

The idea ...

- Following the S2 Pupil Voice a change to the S2 curriculum was required which was agreed at Department level.
- Although French has been the most impacted by a decline in uptake since 2021, the other languages (Spanish and German) offered in the department were also suffering.
- Attended at PBL 101 (offered by Education Scotland) in February 2024 and took the idea of creating a PBL project around the context of 'A Town in ... ' to Principal Teacher.
- Agreed in May 2024 to launch in September 2024 for a 12 week project.

Focus and Aims

- Writing and Talking
- Increasing confidence
- Providing opportunities for learners to make connections between the language they are learning and their future
- To increase enjoyment and engagement

Our City -The Driving Question How can we as city planners design a new city for France/Germany/Spain and present our city design to judges?

What do we need to know to be successful?

The Launch

 Take the learners to Paris and allow them to experience a whistlestop tour of some of the sights whilst developing the four skills and working collaboratively.

Following on from the recent success of the Olympics the French Government have recognised that to satisfy their citizens and tourists another magnificent city is required.

You are being invited to visit Paris the week of 9th September to explore some of the key sites that Paris has to offer.

Upon your return to Paisley your feedback and plans for the new French city is invaluable.

Your flights are booked but the French Government requires you to check in using the QR code.
