

1. Festival of Languages... connecting with schools from Scotland, France, Spain and Germany...

<https://connectlearn.eu>

Our first Connected Learning Festival celebrates the learning and teaching of English, French and Spanish for upper primary and secondary school pupils. We have a lighter programme of events for nursery and lower Primary pupils too.

Through short videos and 3D animations, our characters and their avatars take teachers and their learners from the comfort of their classroom to our virtual land where everything is possible!

Share what learners produce with other schools from other countries on Padlet. Practitioners are given ideas on how to record what is produced by their learners and to create an exhibition which can be shared on Padlet and/or within their own school.

Why choose CLC Festival of Languages?

- Internationalisation of the curriculum
- Connecting schools together
- Engaging teacher professional development in language skills
- Exploring innovative pedagogy and cross curricular resources
- Improving the learners confidence in language skills
- Developing communicative skills in an interactive and stimulating environment!

Cost = £60 per class for a one year licence

2. Off the Shelf L3 package... Exemplify Lifelong learning to pupils!

Introduce a new language and culture to your class and learn alongside your pupils, following a clear linguistic progression.

Videos, animations and other resources can be used directly in class.

Suitable for complete beginners – teachers and pupils alike! The teacher guides the class and manages the pace of learning.

<https://powerlanguage.courses/product-category/courses/courses-for-schools/>

Cost = £97 per School for a 2 year licence

3. The Turing Programme... Send your learners to France, Spain and Germany....

LFEE Europe will build a consortium to support pupil mobilities in 2022 – 2023.

Should you be interested in sending your learners to one of the above 3 countries, get in touch with us. We will put in a bid which, if successful, will allow schools to get funding to send pupils abroad. The grant will cover all costs for pupils and accompanying teachers: travel expenses and subsistence.

We have partnered with many primary and secondary schools in France, Spain and Germany where the trip will take place. Alternatively, you can find a partner of your choice.

Should you be interested, please email us on: info@lfee.net

It would be good to write a little description of a specific theme/project you might be interested in exploring whilst abroad: sustainability, history, geography etc.
