Date/time flexible

Some student quotes

'I liked how we were put on the spot and forced to think hard about the French as it forced us to use certain skills that we otherwise wouldn't utilise in an exam'

'I liked being pushed out of my comfort zone'

[These trips] 'give me the opportunity to speak French to people who can critique my language skills'

'I can see my language being used in a genuine natural setting rather than just a classroom'
