

LANGS Update

ICT Event

Using ANIMATION to support language learning and ALL learning!

We are delighted to announce the details of our very first **BIG** event linking animation with language learning. The event promises to be fun and 'hands-on' and will take place on Saturday 27th January 2018 in Edinburgh.

The invitation extends not only to all primary and secondary teachers in your authority, but we would also like to offer this opportunity to your Advanced/Higher pupils (limited free pupil places available). Please note that someone will leave on the day with a **free iPad mini!**

Please click here to see our very special invitation <https://vimeo.com/239625256/d9a0e36f31>
Places will be offered on a first come, first served basis by emailing info@powerlanguage.net

Immersion Courses

The LFEE team were delighted to see so much energy and enthusiasm for all things language learning during the summer and autumn immersion courses in France and Spain this year. Well done and thank you to all teachers who spent one week (or three for secondary colleagues!) of their holiday time with us in Lyon, Salignac or Malaga. A recall day for those following this up with GTCS accreditation is taking place on the 20th January 2018 in Edinburgh. **Teachers can pre-register now for our courses starting in July 2018. Please email Ros at LFEE (immersions@lfee.net).**

L3 Language Resource Packs; readymade and good to go...

L3 Mandarin project It has been wonderful to see a huge energy and enthusiasm for Mandarin learning in Borrowfield and Monikie Primaries in Angus Council. The pilot involved the study of six lessons created by PLS, over a period of six weeks focusing not only on Mandarin language, but also Chinese culture using stories, puppets and role play scenarios. Tune into the PLS to listen to learners and staff sharing the Mandarin buzz!

L3 Spanish / French / German

You can look forward to L3 planners and accompanying resources coming very soon. Get in touch should you wish to have a look at what it's going to look like!

Family Learning; French Fun for Families in Fife

"Increased attainment, parents as active participants, added value for learners"

These were the big statements used to talk about the French Family learning pilot project launched in April this year in Fife. More than 600 families enlisted on the course to complete six initial lessons with the option to complete 12 lessons in total. SCILT will be writing a case study on this pilot project in the coming months - watch this space!

How could this work for you, your school or local authority? Get in touch to find out more!
