2. Resources for the classroom

You will find a variety of resources for your class on [IFprofs](#), the new worldwide social network for French teachers. Open your account now.

The Institut français offers a variety of free online French resources for the class (magazines for children and teenagers, children books, comics, French lessons for primary schools). Open your account now on www.culturetheque.com to access these free resources.

Tivi5Monde, the francophone web TV channel for children of TV5monde, has developed a board game with many activities to discover French with young learners in the classroom. To support teaching of French in primary schools and make it easier for teachers to use the game, Tivi5Monde has translated the instructions in English and Spanish. Scotland and Andalucia will be the first to benefit from these new resources. 50 hard copies should arrive soon at the Institut français and I will contact you later on in March to organise 3 half day training sessions for DOs and language leaders in the East, the West and the North of Scotland.

3. Summer course in France for ML DOs and 1+2 leaders:

The IFE offers this year again 6 grants to Dos and language leaders for a one-week course in CAVILAM, an international centre of excellence for French teachers and teachers' trainers' professional development.

The course will take place on 30 July to 3 August 2018 in Vichy. It has been designed for DOs and 1+2 leaders who want to discover new techniques and resources to support their colleagues. The course will include language learning and pedagogy. The course will be in French.

The grant includes only the course fee. All other expenses (international and national travel, accommodation, food and additional cultural activities) are of the sole responsibility of the Council or of the candidate.

The application process will begin on 23 April and will end on 12 May.
