

## **OU/SCILT update – LANGS March 1, 2019**

The OU and SCILT would like to let everyone know that the enrolment for the next presentation of their course for primary teachers will be opening at the end of March 2019. The course will start in October, and we will again offer the course in French, German, Spanish and Mandarin. We are aiming to enrol as many students as we can before the summer holidays to help us and schools with planning. So, please pass on the information to allow teachers to plan ahead well in advance.

We are also very happy to announce that we will not only offer the existing course in the 4 languages again, but from mid-August students can enrol on a follow-up course in the language they have been studying to reach the end of the beginners level. This follow-up will also comprise a pedagogy element which delivers more in-depth pedagogy learning as well as guided application tasks. The course is open to existing and to new students who have some previous knowledge in the language of their choice.
