

LFEE Update for COALA

January 2015

Erasmus+

- We have created guidelines for teachers wishing to apply to LFEE courses in France and Spain.

Please contact us should you wish to receive them or should you want us to run an information event in your Local Authority.

Deadline to submit your application:

4th March, 11am

PLL Training

- We have completed Tranche 1 in South Lanarkshire Council. Just under 100 teachers have been trained in French and Spanish.

PLL Training

- Certificates were handed by Janey Mauchline on the last training day – last Saturday morning, despite the snow in Hamilton!
- During the course of the morning, teachers were also showcasing how they had successfully managed to embed French/Spanish into their school/curriculum. An inspiring morning.
- Tranche 2 has just started, with another 100 teachers signed up!

PLL Training

- LFEE is also involved in PLL training in other parts of the country. We use different formats to adapt to the Local needs.

Immersion Courses

- We will be training about 100 teachers from all over Scotland in February and April in Lyon and Malaga. These courses are for the teachers who successfully applied to Erasmus+ last year.

Ebooks

- Two new ebooks in French developed in partnership with Education Scotland will be uploaded on the Education Scotland website and on Glow. Target audience: 1st level.

Ebooks

- Another 2 ebooks in Mandarin are being uploaded on the SCILT website (3 in total, with an extra 2 to be published soon). They have been developed in partnership between LFEE and SCILT/CISS. Target audience: 1st and 2nd level

Training for Secondary colleagues

- 15 teachers have signed up to attend our 3 week course in Malaga, but only 4 for Lyon. A reminder that this course has been designed for qualified teachers who have gained a qualification as a language teacher and who need to undertake an approved period of residency to attain full registration from GTC Scotland.

Training for Secondary colleagues

- Meanwhile our workshop on embedding ICT into teacher's practice has been hugely popular all over Scotland and we are now presenting resources to be used by teachers in the senior phase.

Training for Secondary colleagues

- LFEE was also invited last Friday to an exciting pan-Tayside meeting of PTs and Head teachers from all secondary schools in Perth & Kinross, Dundee and Angus. This was successfully organised by the Pan-Tayside team to raise the awareness of 1+2 in secondary schools. Some constructive and important debates took place!

LFEE Update for COALA

C'est tout, merci
