In December 2011 Christl Reissenberger led German practitioners through a variety of film options and short clips to inspire teachers and learners with this popular medium. Due to the acclaim of this CPD seminar the Goethe Institut Glasgow has invited Frau Reissenberger to conduct another workshop on film, this time in co-operation with the University of Dundee and the Dundee Contemporary Arts center.

The focus will be directed towards a newly compiled series of contemporary German feature films for use in the German classroom. This box set is supported by the network of

German partner schools and consists of 8 films - among others - award winning modern classics such as 'Goodbye Lenin' and 'Sophie Scholl - die letzten Tage'. Frau Reissenberger will also present a newly released DVD with short films.

This seminar will offer a great variety of film and teaching materials, practical ideas and methodologies on how to use viewing options to further a better understanding of German language and culture.
