Dear Colleague,

Are you interested in learning about Chinese language and culture?
Are you looking to introduce Chinese language teaching into your school?
Are you looking for a fascinating, authentic experience of China's language and culture this summer?

The IOE Confucius Institute for Schools (CI) has teamed up with partners at the renowned Beijing Normal University and East China Normal University to design a teacher training course for modern languages teachers and primary school teachers interested in introducing the study of Chinese language and culture into their classrooms.

Generously supported by Hanban (the Office of Chinese Language Council International), this 3-week intensive language course will provide an introduction to Chinese language and culture, giving you a good grounding in Chinese language and enabling you to teach beginner-level Chinese to your students.

Who should apply?

Primary or secondary teachers looking to teach beginners' level Mandarin Chinese in their schools.

How to apply

Please apply online via the link provided. Please note that places on this course are strictly limited, so apply early to avoid missing out. The deadline for applications is Friday 19th April 2013.
