

# Masters Level Languages Education Study at the University of Strathclyde

**Starting January 2018**

- \* Are you teaching a new language to your pupils, or supporting bilingual learners to learn English and keep up with their home language?
- \* Are you ready to start masters level study in 2018? You don't have to wait until September 2018!

We are now offering a number of Masters level classes relating to modern languages, English as an additional language and support for bilingual learners, starting in January 2018.

## **Classes starting in January 2018**

### **Supporting Bilingual Learners PG Cert (60 Credits)**

#### **January-December 2018**

1. Theories and policies in second language acquisition and bilingualism (January-March 2018)
2. Practice in supporting bilingual learners (April-June 2018)
3. Action research to effect change for bilingual learners (August-December 2018)

*Classes are held monthly, on Saturdays, from 10am-4pm*

### **Language Learning and Teaching (40 Credits)**

#### **January-June 2018**

1. Language Learning in a Multilingual World (January-March 2018)
2. Contemporary Issues in Language Teaching (April-June 2018)

*Classes are held weekly, on Tuesday evenings, from 5pm-8pm*

## Strathclyde Masters in Educational Studies

These classes contribute to the Strathclyde M.Ed., which requires a total of 180 credits. The part-time programme lasts three years and students are expected to gain 60 credits per year.

### *Year One*

You will undertake three classes each worth 20 credits, normally one class per semester.

### *Year Two*

You will undertake three classes worth 20 credits. This will usually consist of two optional classes and a compulsory module, *Research Methods and Reasoning*. The compulsory module equips you with the necessary basis for undertaking a dissertation at Masters level.

### *Year Three*

You'll carry out a research dissertation in a subject area of your choice worth 60 credits. We allocate a supervisor for one-to-one support while you carry out the research and report on the findings in your dissertation. We endeavour to match you with the best fit for your specialism.

You can complete your final dissertation by distance learning. This provides our students with the flexibility to complete studies around work commitments.

## To apply

### ***For further information please contact***

E: [hass-courses-edu@strath.ac.uk](mailto:hass-courses-edu@strath.ac.uk)

T: 0141 444 8100
