## **Around the world with stamps 2022 - Competition Rules:**

- **Choose a postage stamp which inspires you to create your project.**  
Look at the StampIT website for ideas and previous winning entries.
- **Find out about the person, place, animal or object on the stamp.**  
Find out why the country issued the stamp. For example, is it a famous landmark, building or person?
- **Find out the official language of the country.**  
Find out how to write the name of the person, place, animal or object in the language of the country. We encourage the entry to include some elements in a second language to your own. However, if the majority of the entry is not in English, please include an English translation/transcript along with the entry. The ASPS judges are English speaking. Many thanks.
- **Choose how you would like to present your project.**  
Create **one** of the following:
  - Create a stamp page which provides information on the stamp, the country and the language. You can also use/link to other related stamps from the same country.
  - Create a video presentation about the stamp (or stamps).
- **Send in entry**  
Stamp page – scan or photograph the entry. Please provide a clear, good resolution scan or photo.  
Video – if too large to email, use free services - e.g. WeTransfer or you can upload to YouTube. You can do this privately, only allowing people you give the link to access. Note that StampIT would require permission to publicise this link (see details to include). Video presentations should be no longer than 3 minutes.
