Feedback from schools & students to our GOOD COP BAD COP 2024

"The conference gave my pupils the experience I was hoping they would receive. They learnt a great deal about climate change's central issues, as well as coming into contact with conflicting viewpoints on many of the areas for the first time. They greatly enjoyed themselves too and have expressed a desire to do more of the same in the future." R Wilmett, Head of LVlth, Marlborough College

Our 18 delegates represented Pakistan. Our resolution was ably proposed and well-defended and was praised as being well-prepared, eloquent and engaged. During the Conference, the energy in the room was simply electrical: with buzz coming from every corner, you could tell people were enjoying the multiple debates through the convincing tones of their narratives..MUN has connected us with an extraordinary pool of people from all over the world, giving us a chance to delve into the multicultural nature of the event. We debated, questioned, and defended various opinions - but most importantly, we had a lot of fun throughout the day.. At the beginning of the day, we started as a group of students, but the Conference has helped us to leave the room as a team of allies at the end... Sofia, LVI pupil, Lancing College

"The quality of the debate was excellent. Thank you to Engage with China for enabling us to compete on this unique, international level. Riya, KSW

"Please make sure that I can take part again next year! A brilliant experience, I loved it." Charlie Poulton, EwC Scholar, Wycombe Abbey School Changzhou

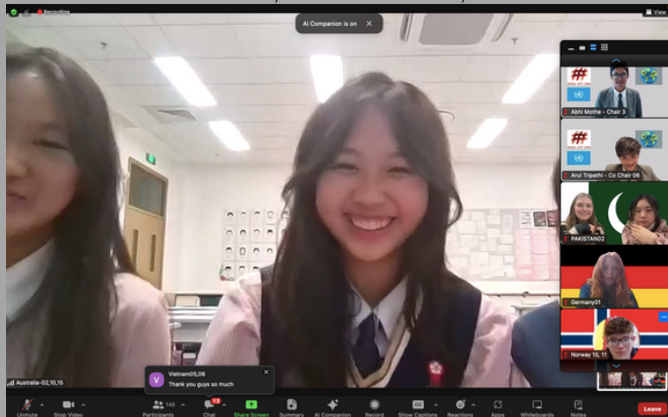

"WE REACHED CONSENSUS ON ALMOST EVERY CLAUSE OF EVERY RESOLUTION.." THEO, CONFERENCE VICE PRESIDENT. THE GRANGE SCHOOL

"It's about consensus not competition. Everyone got really involved. A brilliant conference!" Remi Livesy, Conference President, The Grange School

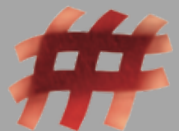

MY STUDENTS WERE SO DELIGHTED BY THE EXPERIENCE, SO MUCH SO, THAT THEY ARE LOOKING FORWARD ALREADY TO PARTICIPATING NEXT YEAR."

JOANNA CHEN, JINLING HIGH SCHOOL, CHINA

"It was a wonderful involvement for our students; they were the first to speak at the first minute sharing their experience on the effect of climate change in Nigeria and how it affects us followed by others from different countries and a lot of interaction between ours and other students in the breakout rooms. It was very educating indeed."

Al-Kauthar Science School, Nigeria

**“Chairing a debate was a really
rewarding experience & I am really proud
of myself!” The Grange pupil**

*“I believe that the art of talking to other people may be one of the most complex
concepts to ever exist. Every individual is a whole universe, subconsciously
interpreting the world from the perspective of their own opinion.”*
Sofia, Lancing College

It's been a really amazing conference - the biggest and
best. It pays off when you hear all of the lovely comments
from all of the delegates from all over the world. The
recognition that this platform is such an opportunity for
young people that they really would not get a chance to
otherwise and I am super proud to be involved in it.”

Richard Higgins, Good Cop Partner
