

ENGINEERING

One of the largest and fastest growing career areas

Do YOU enjoy...?

- ✓ problem-solving and technical trouble-shooting?
- ✓ Maths and Science?
- ✓ innovation and design?
- ✓ long, practical projects?

Are YOU...?

- ✓ accurate and logical in your work?
- ✓ someone who thinks outside the box?
- ✓ a great team player?

...then this **COULD BE YOU!**

Learn another **LANGUAGE**
and sell your skills to a
multi-national company

How?

Think about:

- ✓ Gaining work experience with an engineering company e.g. Tata Steel or Eriez Magnetics
- ✓ Studying Sciences and Maths at A Level for entry onto a degree or MSc course in Engineering
- ✓ Following an apprenticeship route into engineering with a company – earn while you learn
- ✓ Having a year in industry with an international company – improve your language skills whilst gaining valuable experience

Think Languages:

“We have deliberately had a strategy of recruiting people with French, Spanish, German, Italian, Russian or Polish language skills within the business and it’s made a huge difference in terms of our success. We now ask candidates to come with a qualification in Engineering, experience in a processing application and then a language as well.”

- Sarah Grain, Key Account Manager at Eriez Magnetics
